Cured by Lydia E. Pinkham's Vegetable Compound

ham's Vegetable Compound

Milwaukee, Wis. — "Lydis E. Pinkham's Vegetable Compound has made

me a well woman, and I would like to tell thewhole world ef it. I suffered from female trouble and fearful pains in my back. I had the best doctors and they all decided that I had a tumor in addition to my female trouble; and advised an operation. Lydis E. Pinkham's Vegetable Compound made me a well woman and I have no more backache. I hope I can help others by telling them what Lydis E. Pinkham's Vegetable Compound has done for me." — Mrs. Enma Inrus, 833 First 8t., Milwaukee, Wis.

The above is only one of the thousands of grateful letters which are constantly being received by the Pinkham Medicine Company of Lynn, Mass., which prove beyond a doubt that Lydis E. Pinkham's Vegetable Compound, made from roots and herbs, actually does cure these obstinate diseases of women after all other means have failed, and that every such sufering woman owes it to herself to at least give Lydis E. Pinkham's Vegetable Compound a trial before submitting to an operation, or giving up hope of recovery.

Mrs. Pinkham, of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health and her advice is free.

THE HEIR'S HAIR-MOVING.

Mr. White-It's no use, my dear, I shall have to have my whiskers off; baby is pulling 'em out by the roots.

in ndry work at home would be much more satisfactory if the right Starch were used. In order to get the desired stiffness, it is usually necessary to use so much starch that the beauty and fineness of the fabric is thickness, which not only destroys the appearance, but also affects the wear ing quality of the goods. This trouble can be entirely overcome by using Defiance Starch, as it can be applied much more thinly because of its greater strength than other makes.

How to Kill Potato Bugs. Besieged with letters from potato growers all up and down the Kaw valley for a remedy for potato bugs or the "Colorado beetle," as it is techni-cally called, which had been causing so much damage to the Kaw valley potatoes. Prof. S. J. Hunter of the entomology department of the university, has sent out letters to many of the large growers up and down the valley, giving them a formula, which, if used rightly, will effectually kill the bugs. Spray thoroughly the potato tops with the following mixture: White arsenic, 2 pounds; sal soda, 8 pounds; water, 2 gallons. Boil all together for 20 minutes, or until the arsenic dissolves. One pint of this stock solution and four pounds of freshly slaked lime, added to 50 gallons of water and thoroughly stirred makes the spray. The potato tops should be well sprayed with this solution after every shower, or until the beetles and their young have been destroyed. The spraying should continue through the season, or as long as the potato bugs are to be seen.

Pythian Grand Officers. With the election of officers, the selection of Ottawa as the next meeting place and the organization of an association of past grand chancellors, the grand lodge, Knights of Pythias, adjourned. Don't Poison Baby.

CORTY YEARS AGO almost every mother thought her child must have PAREGORIC or laudanum to make it sleep. These drugs will produce sleep, and A FEW DROPS TOO MANY will produce the SLEEP FROM WHICH THERE IS NO WAKING. Many are the children who have been killed whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labelling them "poison." The definition of "narcotic" is: "A medicine which relieves pain and produces sleep, but which in poisonous doses produces stupor, coma, convulsions and death." The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children without you or your physician know of what it is composed.
